EXPERIENCE

Designer, Developer at Scout Studio

January 2016 - Present | Boston, MA

Design and develop responsive sites for different projects using Sketch and Invision. Expanded Scout's visual identity with marketing collateral, videos, and animations made in After Effects and Premiere Pro.

CCIS Fellow at Northeastern University

September 2017 - Present | Boston, MA

Mentor incoming class of CCIS students through weekly class meetings and one-on-one talks. Assist course instructor with lesson preparation, presentation, and grading. Chosen from a competitive pool of candidates for this position.

Software Engineer Intern at John Hancock

January 2017 - June 2017 | Boston, MA

Created user-focused internal facing apps to increase company productivity, using agile practices. Collaborated with designers and developers to fix bugs, implement feedback, and polish designs across several projects. Learned web frameworks including Angular2, React, used in short and long term projects.

PROJECTS

Email Signature Tool

March 2017 | John Hancock

Created a front-end app that generates a user's email signature based on given input, written in Typescript/Angular 2. Improved internal consistency to 500+ employees through formatting and user-focused design.

Hello LA

February 2016 | Hack@Brown

Created a web-based local's guide to Los Angeles, on a team of designers and developers. Co-designed the UI, UX, and brand identity of the site in a 24 hour deadline. Project won overall best user experience out of 100 teams.

CONFERENCES

Out for Undergrad Tech

September 2017 | San Francisco

Tech conference for LGBTQ+ students, focused on diversity, inclusion, and being your authentic self. One of 208 students chosen nationwide to attend.
